I KNOW HOW TO PARK IN BRNO

PARKING IN BRNO FROM 30. 9. 2019

The parking system has become more structured from September 30, 2019, with only three visitor zones with scaled parking fees. The system is easy to use for visitors. The closer to the center you are, the more you pay for parking your vehicle.

Current rules remain the same for residents and subscribers, with some benefits, such as lower prices for additional vehicles.

Why is the parking system changing?

During regular operation, some shortcomings of the existing system have become apparent, and these shortcomings needed to be dealt with. The crucial point has been to make the whole parking system simpler. At the same time, comments raised by the users of the system have been taken into account to improve it.

Key changes in the parking system:

- ▶ Division into Visitor zones A (red), B (green) and C (blue)
- ▶ Zones A and B will be regulated day and night, while in Zone C the regulation will apply only overnight (from 5 pm till 6 am).
- ▶ The regulation applies only on business days
- ▶ Additional parking hours for residents' visitors (in Zone A/B, 200 hours of free parking with the option to buy additional 100 hours)
- ▶ Discounted parking for subscribers (1 car for CZK 4000 per year, each additional car for CZK 18,000 per year)
- ▶ Visitor subscription for Zone B, suitable for employees, releasing them from the duty to pay for parking every day. The price is CZK 400 per week / CZK 1,200 per month / CZK 12,000 per year. Valid only for Zone B from 6am till 5 pm.
- ▶ The extension of the permit for severe health disability card holders enables them to park 3 hours every day FREE OF CHARGE in each zone.
- ▶ Change for motorcycles: in the regulated zones, i.e. in the zones with parking fees, motorcycles can be parked free of charge. However, a permit must be arranged in advance. The procedure is similar to the one currently applicable to cars, but the permit is not related to the place of residence, only to the registration plate of the motorcycle.
